

MULTI 250K

Single-phase – multifunctions, inverter power source for industrial applications. User-friendly synergic functions are provided on all the welding processes, making it suitable even for inexperienced users. complete pulse mig programs for any kind of material with the features of fast puls to increase the welding speed. Double Pulse Mig easy to set Mig Synergic with full set of programs TIG and TIG Pulse for professional applications with special Lift Arc starting MMA with high level characteristic, with synergic option.

TECHNICAL DATA

Single Phase	Fuse	ED MMA		ED TIG		ED MIG		P ₁ Input Power	U ₀ Max no load voltage	IP Protection Class	Pool Max
