

NEW ORBITAL SYSTEM FOR TUBE-PLATE WELDING

in mig-mag or pulse mig, easy to be connected to RWS or MULTI system.

Innovative tube-plate Mig/Mag welding equipment. Easy connection to any off-shore wire feeder, it performs high quality automatic welding in Mig/Mag and pulsed Mig process.

The equipment includes cables, gun and the control console. Positioning is fast and precise due to the pneumatic piston auto-restraint. Light weight and therefore easy handling and setting.

THE KIT ORBITAL SYSTEM INCLUDES:

- *Orbital gun*
- *Mig air gun 380A – 4 m long*
- *Control console*
- *Connection cable to Ter wire feeder*
- *Lifting hanger with chain*
- *Pneumatic piston for 3 inch tubes (other sizes upon request)*
